

ODAI AMJAD MOHAMAD AHMAD

AI-Powered Full Stack Developer | Software Engineer

+962 787 388 117 | odai.amgd96@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Jordan

SUMMARY

Computer Science graduate (B.Sc. 2026, Zarqa Private University) with a strong interest in AI development and full stack engineering. Proficient in Python, C#, JavaScript/TypeScript, Angular, and ASP.NET Core with hands-on experience building machine learning pipelines, RESTful APIs, and enterprise-grade web applications. Demonstrated ability to deliver end-to-end solutions across cybersecurity analytics, intelligent educational platforms, and healthcare systems. Strong foundation in ML with Scikit-Learn, data processing with Pandas/NumPy, and database design with SQL Server/Entity Framework.

TECHNICAL SKILLS

Languages	Python , C# , Java , JavaScript , TypeScript , HTML , CSS
Frontend	Angular , Tailwind CSS , Responsive Web Design
Backend	ASP.NET Core , ASP.NET MVC , REST APIs
Data & DB	SQL Server , Entity Framework , SQLite
AI / ML	Machine Learning , Scikit-Learn , Pandas , NumPy , ML.NET
Tools	Git , GitHub , Visual Studio , VS Code , SSMS

KEY PROJECTS

BBCI – Behavioral Banking Cybersecurity Infrastructure | Angular | ASP.NET Core | Python | SQL Server

- Architected a behavioral analytics platform for real-time user behavior monitoring, risk scoring, and intelligent security alerting.
- Designed RESTful API layer connecting Python-based analytics engine to Angular frontend with role-based access control.
- Implemented SQL Server data pipelines for audit logging and security event storage supporting regulatory compliance.

AI Quiz Platform | ASP.NET Core | SQL Server | Machine Learning

- Developed an AI-powered educational platform serving dynamic quiz generation and adaptive learning workflows.
- Integrated ML model inference pipeline into ASP.NET Core backend to deliver personalized question sets.

ML Classification System | Python | Scikit-Learn | Pandas | NumPy

- Built end-to-end machine learning pipeline covering data preprocessing, feature engineering, model training, and evaluation.
- Applied classification algorithms with Scikit-Learn; validated performance using cross-validation and key ML metrics.

Hospital Management System | ASP.NET MVC | SQL Server

- Delivered full-stack healthcare application managing patient records, appointments, and administrative workflows using MVC pattern.

Salary Budgeting App | Java | Android | SQLite

- Built Android mobile app for personal budgeting, expense tracking, and financial planning with local SQLite persistence.

Personal Portfolio Website | Angular | TypeScript | Tailwind CSS

- Designed and deployed a responsive portfolio website using Angular and Tailwind CSS to showcase projects, certifications, technical skills, and professional achievements.

EDUCATION

Bachelor of Science in Computer Science

Graduated 2026

Zarqa Private University | Jordan , Overall GPA: 76.6% (Very Good), Final Semester GPA: 88.6% (Excellent)

CERTIFICATIONS — CISCO NETWORKING ACADEMY & PYTHON INSTITUTE

Introduction to Modern AI , Apply AI: Analyze Customer Reviews , Apply AI: Update Your Resume , Data Science Essentials with Python , Python Essentials 1 & 2 (Cisco / Python Institute) , Ethical Hacker.
